To whom it may concern

Pearson Safety Services (PSS)

I confirm that I have dealt with PSS since 2007, during which time they have provided my business with excellent support in the areas of on-site contractor management, site specific safety induction, compliance support for contractors and provision of monthly metrics for tracking and trending purposes. Their work has been a factor in our site's success in proactively managing our contractors and maintaining a "zero tolerance" for unsafe contractor activity on site.

I can confidently recommend PSS as a solid and reliable supplier, and experts in their field.

Respectfully,

Kim Adkins
EHS Advisor
